California Community Schools Partnership Program Grant

- California's Governor Newsome allocated grant money so that every school can have funds to help students and families be successful.
- Our school will be participating in the grant. Positions such as social workers can be hired for each school that can help families with needs they might have, such as where to get help with food, clothing, health needs, housing, etc. Additionally, The School sees the need for social-emotional and mental health support for our students and their families.
- Asked parents, what other needs are for our students and their families for our charter school.
- Timeline-July 1.

NOTES:

Parents suggested allocated funding for student polos, sweaters, and designated field trips. One parent suggested we make a garden on the south side of the building and have students have an area to eat lunch.

No further suggestions for fund allocation.
